

Babyvision Limited

### Terms and Conditions

All and any services provided by Babyvision Limited are transacted subject to these terms and conditions which are accepted by you and will come into immediate effect.

Using its best endeavours to maintain the highest possible standards Babyvision Limited will instruct only appropriately qualified ultrasonographers or medical staff to perform scanning services.

Babyvision Limited shall not be liable for loss or damage howsoever caused unless due to the negligence of Babyvision Limited in the performance of its services.

Strict confidentiality shall be maintained in respect of any medical information provided to or otherwise obtained by Babyvision staff in connection with the provision of its services.

You consent to the ultrasound scan procedure and agree to discharge payment for this service immediately unless otherwise specified.

We accept cash, credit and/or debit cards.

A fee may be charged if you fail to keep your appointment, unless 48 hours notice is given. Appointments can be cancelled by telephone, leaving a message on our answerphone or by email.

The confidentiality of patient information is of paramount concern to Babyvision Limited. To this end Babyvision fully complies with Data Protection Legislation and Medical Confidentiality Guidelines.

Medical information will be kept confidential. It will only be disclosed to those involved with your treatment or care including your GP.

For medical scans - A note is made on the booking form to ascertain whether a copy of the report may be sent to your General Practitioner (GP). We do not require a referral letter from your GP for the scans provided by Babyvision Limited.

You understand it is your responsibility to pay for Babyvision Limited services whether or not you have private medical insurance or arrangement with any other third party.

The 4D bonding ultrasound scan is intended for the parents to bond with their baby. It is a non-medical and non diagnostic ultrasound examination. This is not a fetal abnormality check and is not for medical diagnosis of abnormalities. All routine antenatal scans and appointments should be attended.

All our DVD recordings are made on pre-printed Babyvision Limited DVD+RW discs and will play on any compatible DVD player or PC with the appropriate DVD playback software. Due to industry variations regarding recording formats and the age of your DVD player; Babyvision Limited will not provide guarantees regarding the ability to playback the DVD.

Whilst every attempt is made to acquire the best possible images, this is largely dependent upon the position of the baby within the womb and patient BMI. Should successful images not be acquired, we would ask you to take a short walk to try to change the position of the baby. If when we re-scan you the baby is still not in a favourable position we may ask you to return at a later date to re-scan you. We may not always be in a position to offer a weekend appointment in these circumstances. We will charge for a gender scan if gender recognition has been performed, otherwise you will be charged for a fee of £30 for the appointment.
